**CCSD** ● ● ●

## A complete solution for editing and publishing scholarly journals in diamond open access.

Managed by the CCSD (CNRS, Inria and INRAE) and a part of the HAL+ infrastructure, the platform supports the link between publications, data and softwares. Episciences offers technical and editorial support to journal teams regardless of their disciplinary field.

### AT THE SERVICE OF THE EDITORIAL TEAMS

- **a workflow** to facilitate the management of manuscripts, from their submission via an open repository (HAL, arXiv, Zenodo, etc.) to their publication;
- **a website** dedicated to the journal that you manage independently;
- **a team to support you** in getting started with the tool and its configuration, as well as in the management of editorial issues (referencing copyright assignment contract);
- **bilingual English/French documentation** and trainings.

**JOINING EPISCIENCES** means taking full part in the dissemination of Open Science, with **no fees either for reading nor for publishing**.

#### EPISCIENCES IN SHORT (September 2024)

Platform created in **2013**

**36** journals  
online

**6,500** articles

#### EPISCIENCES WITHIN THE CCSD'S ECOSYSTEM

The CCSD is at the service of the scientific and academic communities. Its mission is to facilitate all forms of direct scientific communication, to give greater visibility to French research through the open dissemination of its results and to ensure its sustainability.

It has created and manages three platforms: the national open repository HAL, Sciencesconf dedicated to organisers of scientific events, and Episciences. It is a major player of the French National Plans for Open Science (PNSO).
