conference management

CCSD

Sciencesconf facilitates the organisation of a scientific conference: from the submission of papers to the edition of the proceedings, including the peer reviewing and the scheduling.

AT THE SERVICE OF ACADEMIC COMMUNITIES

Sciencesconf is intended for anyone of the Higher Education and Research community, who organizes events with a scientific content (colloquium, congress, conference, workshop, seminar, study day, etc.), in every disciplines.

Benefits:
- Use of the platform is free of charge;
- The interface is available in French, English and Spanish;
- Support services and user documentation are provided.

Any request to create an event in Sciencesconf is reviewed before validation.

COMPATIBLE WITH HAL

The interoperability with HAL is a time saving for the authors of papers as well as for the event organising team; it also helps advertising the event, and it guarantees the long-term preservation of publications.

SCIENCESCONF WITHIN THE CCSD'S ECOSYSTEM

The CCSD is at the service of the scientific and academic communities. Its mission is to facilitate all forms of direct scientific communication, to give greater visibility to French research through the open dissemination of its results and to ensure its sustainability.

It has created and manages three platforms: the national open repository HAL, Sciencesconf dedicated to organisers of scientific events, and Episciences. It is a major player of the French National Plans for Open Science (PNSO).
